General Audiobook Reviews

On Writing Your First Novel: The Journey of a Wannabe Novelist by *Stephen Haunts*

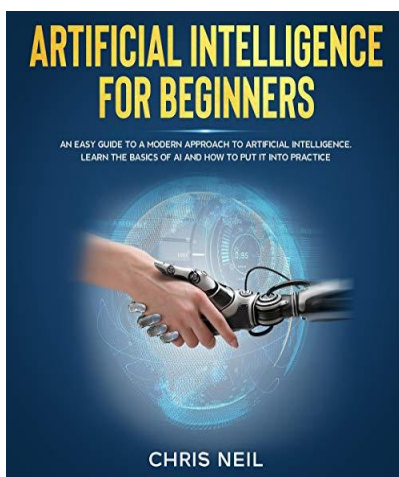

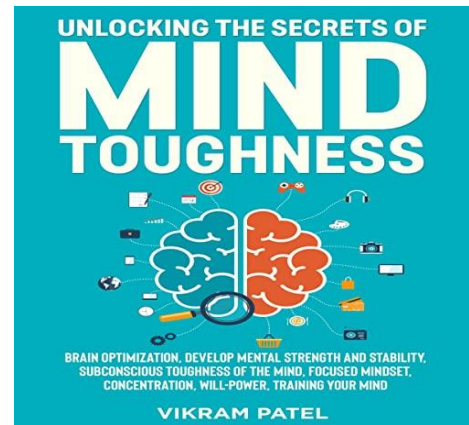

A well written, engaging, and entertaining journey about what goes on behind the scenes with one author's first stab at writing and publishing a fiction novel.

Unlocking the Secrets of Mind Toughness: Develop Mental Strength and Stability by *Vikram Patel*

A great listen. For me, the listening was incredibly beneficial. I'm thrilled with this audiobook, Really!

Scott Hancock, Audible Listener Review, 2023

Artificial Intelligence for Beginners by *Chris Neil*

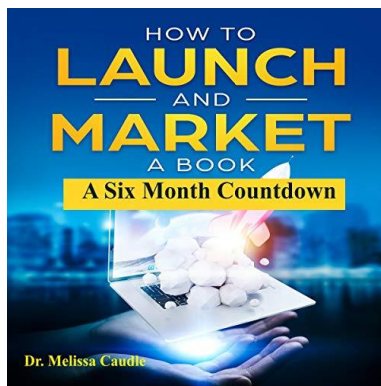

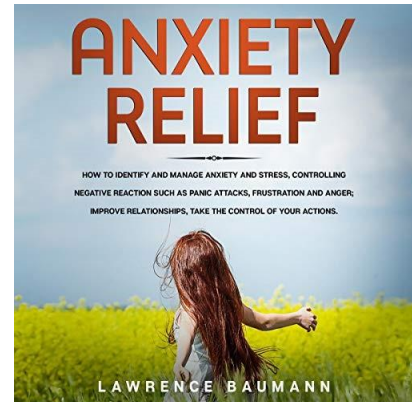

This audible played an extremely supportive role. Great audible, objective, focus on current and real use cases. Great hearing for those who need an overview of AI. Quick, easy listen.

Randy C. Chavez, Audible Listener Review, 2020

Anxiety Relief by Lawrence Baumann

A very quick and easy to listen. A wonderful well-spoken audio book that will make a huge difference to anyone who suffers from anxiety.

Roslyn Herman, Audible Listener Review, 2020

How to Launch and Market a Book: A Six Month Countdown by Dr. Melissa Caudle

Highly Recommended. Enjoyed listening to this book. Solid info and easy to understand.

History of Russia by Captivating History

I absolutely love it and would buy it again. Excellent as a History of Russia audiobook. Easily to understand and moves the listener along without overstating or oversimplifying the importance of Russian history.
