General Audiobook Reviews

How to Launch and Market a Book: A Six Month Countdown by Dr. Melissa Caudle

Highly Recommended. Enjoyed listening to this book. Solid info and easy to understand.

Artificial Intelligence for Beginners by Chris Neil

This audible played an extremely supportive role. Great audible, objective, focus on current and real use cases. Great hearing for those who need an overview of AI. Quick, easy listen.

History of Russia by Captivating History

I absolutely love it and would buy it again. Excellent as a History of Russia audiobook. Easily to understand and moves the listener along without overstating or oversimplifying the importance of Russian history.
